IDEATION PHASE

INTELLIGENT ADMISSION AND IDEA PRIORITIZATION TEMPLATE

Date	**17 March**
Team id	**NM2023TMID20649**
Project Name	**Intelligent admission: The future university decision**
Maximum	**5 Marks**

Intelligent admission: The future university decision
&PRIORITIZATION TEMPLATE:

- **Under this activity our team member has gathered and discussed various ideas to solve our project problem each member contributed size to ten ideas after gathering all ideas we have assessed the impact and feasibility of each point**

- **Finally, we have assigned the priority for each point based on the impact value**

1

Define Your Problem Statement

What problem are you trying to solve? Frame your problem as a How might we statement. This will be the focus of your Intelligent admission.

🕐 **5 minutes**

PROBLEM

How might we[Intelligent admission: the future of university decision]

PROBLEM

How might we[What do you believe are the most important qualities for a person to possess in order to excel in the field of intelligence studies?]

2

Here Are some ideas that come to mind the address your problem statement.

⏱ 10 minutes

suresh

With the increasing number of applicants and limited admission seats, universities are facing challenges in selecting the most suitable candidates for their programs.

vignesh P

The traditional admission process relies on standardized test scores, GPA, and extracurricular activities, which do not always reflect the potential and unique qualities of an individual. This approach also perpetuates biases and inequalities in the admission process.

vignesh S

An intelligent admission system that uses advanced algorithms and machine learning models can provide a more holistic and personalized evaluation of each applicant. This system can take into account various factors, such as work experience, cultural background, and personal interests, to identify the most suitable candidates for a particular program.

suriya

An intelligent admission system can enhance the diversity and inclusivity of the student body, improve the quality of education, and increase the reputation and competitiveness of the university. It can also save time and resources for both applicants and admission officers, and reduce the subjectivity and errors in the admission process.
